AROUND TOWN AND DISTRICT

'Chas. Roy is a visitor in Edmonton.

Fred Dowswell is advertising for a farm located near Mirror Beach. His ad. may be read in another column.

N. W. Pritchard, Manfred, will entertain a party of young people at his home on Friday evening, Jan. 19th.

Those wise guys, who sat along the counters in our local stores some weeks ago and predicted that this would be the severest winter in the memory of the oldest denizens in the country, will have to get together again and revise their forecasts, or the younger generation will lose faith in them as weather prophets.

BURGLAR SCARE

A great deal of excitement was caused in town on Tuesday morning when it became noised abroad that an attempt had been made to enter one of the local strongholds for the storage of specie, the previous night, somewhere along in the early hours. Mr. Lyall, who is guardian of the institution seems to be the only person who caught a glimpse of the marauders and his description is somewhat meagre regarding the three burglars. Footprints in the snow were visible the following morning, but as there is no chief of police or sheriff Holmes in this hamlet to ferret the mystery, the tracks did not prove of much benefit, and as this was the only clue on which to base an investigation, the supposed robbers are still at large. A dose of buck-shot and lead awaits the disturbers of the town's peaceful slumbers on the next visit.

Mah Bing is away to Edmonton on a business trip.

J. N. Mitchell is able to be around again after a sledge of grip.

The MacCormack Lumber Co. have put in a car of coal and will keep a supply on hand.

A. M. Keller was in town for a day or so and reports fishing on Buffalo Lake to be of the best. This winter fishing seems to be an industry that has been over-looked in the advertising literature regarding the town and vicinity.

On Monday last, the home of L. O. Phelps was brilliantly lighted in honor of their son, Samuel's nineteenth birthday. About eighteen guests were seated at the table, which was most tastefully decorated and was also all that the most exacting epicure could desire. Some very pretty gifts were presented, with which all were well pleased. After the supper the company were seated to play king pedro and all had a most pleasant time until the wee hours of the morning when they adjourned.

SUCCESSFUL DANCE

The dance held in Johnson's pool room, on Wednesday, Jan. 17, proved to be one of the best ever held in Mirror. Alix, Bashaw, South Buffalo Lake, Samson and the neighboring country were well represented, and over sixty couples tripped the light fantastic until nearly dawn. The Merry Mirror Minstrel quartette gave several selections, and received repeated encores. Cards were also on the program, and the Woodmen orchestra supplied their usual brand of good music.

New \$40,000 Hotel For Town of Mirror

It is expected that the start on the new Imperial Hotel will commence in the course of a few days. The plans of the building have arrived and the preliminary arrangements are now being made, and it is the intention of the proprietor, F. S. Cook, of Wainwright, to start the erection of the building just as fast as possible.

The hotel, when completed, will be modern and up-to-date and one that will be a credit to the town of Mirror. The building will be erected on lots 1, 2 and 3, blk. 9, which is the corner of Lake street and Roome ave. and will front on Lake street. The plans call for a building 48 by 74 feet; three stories high, full basement with concrete walls and floor, and 8 foot ceiling.

The first floor consists of rotunda, bar, wash room, dining room, kitchen and sample room. The rotunda will be a fine well lighted room 15 by 28 feet, with five windows 18x48 inches, and 16x38 inch transoms. The entrance to dining room, wash room and basement will be from this room. The dining room will be a very nice room 25x27 feet, lighted by three large windows the same size as in rotunda. The dining room fronts on Roome avenue. The kitchen measures 18x36 feet, and there will also be an entrance to the basement from the kitchen. The wash room and toilet will be off the rotunda. The bar will be 16x28 feet with double window in front and another on the side. The entrance to the bar will be from Lake street and off the wash room. The sample room is located in the rear, and entrance to same will be from Roome avenue. This story will have a eleven and a half foot ceiling. There will also be a wide veranda and balcony across the front of hotel.

The second floor consists of parlor, 13x21 feet; fifteen bedrooms and bath room. The main hallway will be eight feet wide with door to balcony in front, and door in rear to outside stairway. Two fire escapes run from the second floor, one from hallway over kitchen, and the other on east side of building. All the rooms will be well lighted, and will have a nine foot ceiling. The bedrooms will be tastefully furnished and everything will tend to the comfort of the patrons of this modern hostelry.

The third floor consists of seventeen bedrooms, both room hallway and fire escapes on the same plan as the second floor. The whole structure will be built of first-class material in every respect, and will be steam heated throughout. The building will cost about \$40,000 when ready to open to the public for business, which will be just as soon as it can possibly be put up after the weather becomes mild enough to start the excavations and put in the concrete work. The Imperial Lumber Co. of this town are furnishing the material for the building, and they have a large portion of the lumber in their yard at the present time. The contract is also being arranged to have the gravel and sand hauled for the concrete work, and it is expected teams will be busy in a few days getting the necessary supplies from the shores of Buffalo Lake.

Mirror's hockey seven journeyed up to Tofield last Thursday and had a try at the crack Silver Seven aggregation doing business in Tofield. The locals did not go up with the expectation of winning, as the team never had a practice together, and furthermore, some of the players had not played hockey for several years. However, they gave a good account of themselves and the score is hardly a fair indication of how the play stood. The Mirror team have every reason to be proud of the way in which they held the home team down, and although the Mirror bunch showed plainly their lack of condition, they put up a good fight argument for the entire thirty minutes. There was plenty of hard checking and the Mirror men more than held their own in this department, but were outclassed in combination plays. As for individual work the Tofield boys showed up to good advantage, their better condition accounting for this.

The first ten minutes was all in the visitors' territory and two goals were netted before Mirror found themselves, and in the last few minutes they managed to get their one and only tally. Both teams checked hard and close and one or two individual rushes by Haines, the star performer for Tofield were nipped in the bud by the strong defense put up by the visiting team. Score 2-1.

The second period was the best hockey in the game, and Tofield increased their lead by two more goals. The play was about even, but poor shooting on the part of the Mirror men, kept their end of the scoring down to the unit. Score 4-1.

In the last twenty minutes the Silver Seven carried the play into the Mirror territory for the greater part of the time, but only managed to find the net twice. The opposing defense put up a great game and broke up the Tofield forward line rushes time after time. The Mirror goal had many close calls, and the gong sounded with the score 6-1.

Three players from each team decorated the fence at intervals for minor offences. No one was seriously injured outside of the customary bumps and bruises. The teams lined up as follows:

MIRROR
Wilson Goal, Charlesworth
Suggitt Point Hains
Dair e point Samors
Calms rover Bisect
Steele left wing Huld
Good centre Macdonald
Harper right wing Letourneau
Referee, J. Macdonald.

PUCKLETS
That's going some for a small town.

The rusher by Haines were dangerous at the beginning, but when he came in contact with L. J. Arthur, something had to go. Hains went.

Both teams have a good defence, and it's about six of one and half a dozen of another which is the best.

Messrs. Coleman, McKie and Lyall were the rooters to go with the team.

A return game will be played in Mirror shortly. It'll be some game.

The following appeared in the Edmonton Journal under

date of Jan. 13th, from the Tofield correspondent: "Tofield's Silver Seven defeated the Mirror Huskies yesterday, here by 6 to 1 in a strong game. The Huskies are reported sure over the loss of the game, coming up with the expectation of putting it over the Tofield boys."

You're in wrong there, Mr. Special Correspondent. The Mirror team did not expect to win the game, but what they did feel sure about was the rank decisions handed down by the referee and judge of play. All that was wanted was a square deal, but suppose it was only natural for the Tofield officers - Heating, to give all the favors to the home team, which proved to be the case. The team report being used "white" in every other respect.

BOARD OF TRADE

The regular meeting of the Mirror Board of Trade met in the printing office on Tuesday evening, Jan. 16th, with President Flewelling occupying the chair. Minutes of last meeting were read and passed. Correspondence was read and the Secretary was instructed to reply.

J. E. McLaren, T. R. McKorkell and Secretary Staples were appointed a committee to communicate with W. F. Puffer, regarding the road leading into Mirror from the west. A partially prepared report was submitted by the By-law committee. A motion was made to suspend the rules and regulations will take place at the next meeting, when every member is asked to be present.

Meeting adjourned to meet on Feb. 6th, at J. F. Flewelling's house.

YOUNG PEOPLE'S LEAGUE

A Young People's League has been organized at Manfred and the following will hold office for the coming term:

President, Mrs. Emma Skode;
1st Vice-Pres. Preston Sharp;
2nd Vice-Pres. Rev. G. W. McIntosh;
3rd Vice-Pres. Herman Skode;
Secretary, Miss Jennie Wilcox;

Treasurer, Miss Gladys Sharp;
Organist, Miss Vera Wilcox. The regular nights will be every Friday and Saturday, starting with the evening of Jan. 20th. The League starts at 7.30 p. m.

MIRROR, ALTA., JAN. 18, 1911

THE YEAR'S LESSON

An election and a census year has made 1911 rather an eventful one for Canada. An election, though it may mean the outgoing of one government and the incoming of another, does not affect the average individual very much, and general conditions soon settle down to the old order of things. The results of a census also do not concern the individual very much, who continues doing the things he has been doing in the same old way. At the same time the census returns are of vital importance to the country at large. They show success or failure in a country's development and tell a story of progress or the reverse in a very effective way. The returns of 1911, so far as the returns have made public, are both satisfying and non-satisfying. They show the progress of our manufacturing industries during the decade appeal to our vanity and pride. But when a large share of this expansion, and returns regarding rural population, recently made public, show, has been obtained at the expense of the rural districts in the elder parts of Canada, there is a doubt in one's mind as to whether the progress we have made is something to be proud of or not. It may appear all right today. But what of the future? If looking to the city continues during the next decade at the same rate as during the past one, agriculture in the older provinces will have become a second rate affair. In a country like this there must be an even balance in its progress, if that progress is to be permanently successful. We may go on enlarging our cities and building up our manufactures, but if there is not agricultural progress along with it, the country's future is in doubt.

CHANGES IN SCHOOLS

Reorganization of all the public schools in Alberta took place at the beginning of the new year in accordance with the provisions of the program of public school studies which was announced by the department of education.

Classes were altogether rearranged. Instead of five standards there will be eight grades in the public school course. The eight grades will make the public school course one of eight years' training for the average pupil. It is presumed that the average child who enters at six is ready for high school at fourteen. Children who enter at seven or eight will be allowed to overtake those starting at an earlier age. The objective of the new course is to provide a thorough English training. A new subject, "civics" is in-

troduced, as well as manual training, household sciences and music. The object of the civics studies of grades seven and eight is to fit pupils for the duties of citizens before leaving school by giving them a full idea of the forms of government under which they live. Much supplementary reading is connected with the course so that the child leaving school will be much more widely read than formerly.

NEW GRAND TRUNK BOATS

The material for the two new boats being built for the Grand Trunk Pacific, construction on the Fraser River from Tete Jannet Cache to Fort George, is being prepared at New Westminster, B. C., at the shipyards of G. S. Askew under the supervision of Capt. S. B. Johnson, who will be in charge of the boats operated on the Fraser River. These boats will be 140 feet long by 34 feet wide, stern wheelers with a carrying capacity of 250 tons each. Two barges will be built in addition, and each boat with a barge in tow will have a carrying capacity of 500 tons of cargo each trip. The engines for these boats have been removed from the "Conveyor" and "Operator" which have been operated on the Skeena River for the past two years, and will give these boats a speed of fifteen miles an hour.

The British Columbia Express Co. have announced that they will have boats on the Fraser next season on the same route, carrying commercial business, so that there should be adequate facilities for the handling of freight and passenger business from the end of steel to Tete Jannet Cache and points on the Fraser river to Fort George, and with other steamers operating on the Nechaco distribution line, a distance of approximately 100 miles only, from the end of steel from Prince Rupert, and in the course of another year there should be through communication established across the central interior of British Columbia, thereby opening up with suitable transportation facilities the rich agricultural lands with moderate climatic conditions, which it is confidently expected will prove to be one of the most extensive and most productive areas of arable land in Canada. The scattered settlers in the interior have been obliged to rely upon team transportation for 167 miles from Ashcroft to Soda Creek and steamboat navigation during a short period of the year from that point to Fort George. The cost has been enormous, but with access to the railway at Tete Jannet Cache freight will be delivered next year under comparatively normal conditions, and incidentally building of the trade of Edmonton, Edson and Fitzhugh on the main line of the Grand Trunk Pacific as a natural sequence.

A BARGAIN INDEED

It would be impossible to figure what a benefit The Family Herald and Weekly Star of Montreal has been to the West. It affords the greatest amount of genuine good reading for every member of the family and it's benefit to the farming in its agricultural pages are worth hundreds of thousands of dollars every year. It is not merely a theoretical paper. It is a practical farm paper in every respect and there is no farmer in Canada who can not profit by reading it. Two cents a week, one dollar a year—the price of one bushel of wheat for a whole year—subscription to that great paper, not to speak of the beautiful premium

picture "Home Again," also 22x30 inches, ready for framing. It makes one wonder if the publishers pay their paper bills. Any home in this western country that does not receive the Family Herald and Weekly Star for 1912 will miss a bargain indeed.

ALBERTA STOCK SHIPPERS

AND THE NEW LIVE STOCK CONTRACT

From reports which have come to hand, it appears that practically all the live stock interests of Canada were represented at the meeting held in Toronto to discuss the new proposed Live Stock Shipping Contract, except the one most directly concerned in it, namely, the shippers themselves.

There were delegates representing Stock Breeders' Associations, Fairs Association, Boards of Trade, Manufacturers' Association and government officials, but from Alberta alone was there a delegate who carried credentials from a body of stock shippers and even here the organization is as yet only temporary.

The situation is anomalous and difficult to explain. Alberta shippers, like most Alberta men are live wires, and they got together and expressed their views just as soon as they were advised of what was doing, but their work is not yet done. It is evident that the entire subject of shipping live stock is about to be investigated. A set of regulations governing live stock shipments has been submitted to the Board of Railway Commissioners by the Live Stock Commissioner at Ottawa for approval. The railway companies reply that these are not needed, and the service they are now giving the shippers is good enough and in their own interest have submitted for approval this new Live Stock Shipping Contract, in which they endeavor to get the shippers to release them from responsibility for almost every conceivable kind of accident, no matter who may have been the cause of it.

Another important feature of this Contract is the one which

ing it the duty of the shipper to explain to the man he sends in charge of his stock, that in case the attendant is injured, he cannot collect from the company, no matter how the injury occurred, and if the shipper fails to do this and fails to get the attendant to sign a contract releasing the company from all responsibility for his safety, then the shipper is himself liable for any claim for damages that may arise should the attendant be killed or injured while going through with the stock or returning.

Shippers of live stock are the people most directly interested in these questions and the nature of the decision that will be rendered on them will depend very much on the manner in which the shippers represent their side of the controversy.

All that has been done to improve shipping conditions thus far has been done by the stock breeders' and stock growers' association, and government officials. It is time that the shippers speak for themselves. Had they done so long ago much more would doubtless have been accomplished.
